## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9, 15-16, 19-22 and 31 drawn to a lead frame, classified in class 174, subclass \*\*\*.
- II. Claims 10-14, 17, 18, 23-26 and 32-34 drawn to a method of manufacturing a magnetic sensor, classified in class 29, subclass 592.1.
- III. Claims 27-30, 35 and 36, drawn to a magnetic sensor, classified in class 324, subclass \*\*\*.

The inventions are distinct, each from the other because of the following reasons:

Group I is separate and distinct from group II inasmuch as Group I is a subcombination of Group II and can be used independently of Group II; Group I is separate and distinct from Group II inasmuch as group I is unrelated to Group III; Group II is separate and distinct from Group III inasmuch as the Group III invention can be made in another materially different manner e,g without a lead frame.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Groups are divergent, restriction for examination purposes as indicated is proper.

Art Unit: 3729

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
